

# RENEWED AND READY

*Over the past few weeks, WZ has been closely monitoring state or county stay-at-home orders and regression of restrictions for each of our training locations.*

*We want to ensure you feel comfortable and safe as we prioritize the wellbeing of our attendees while providing deliverable options for receiving our training. Here are the measures we are taking:*

---

- Class sizes will be limited to ensure compliance with local regulations and appropriate social-distancing measures may be followed
- Each attendee should bring a mask and follow the local guidelines accordingly. Masks will most likely be needed when entering host locations, common areas or when social distancing cannot be maintained.
- We are in contact with the host location regarding sanitation requirements and room set up that will be consistent with local regulations.
- We have adjusted any role-play or group activities in the training to be compliant with social distancing.
- We have temporarily suspended the use of our electronic registration on-site to minimize contact of devices between attendees.
- Instructors will provide instructions at the beginning of the class to address protocols consistent with CDC guidelines that will be implemented throughout the program.
- Hosting facility (hotel, conference center, etc.) may have additional protocols that all attendees will be expected to adhere to.
